

LOVE KRAFT

LoveKraft was formed in 2005 out of San Jose, California by Scott Kusayanagi (Vocals / Guitar), Jeff Payne (Bass / Vocals), and Mike Craig (Lead Guitars). During the next year songs were written and reshaped into the style/sound that is LoveKraft - a mixture of Audio Slave, A Perfect Circle, Incubus, Rage Against the Machine, and Tool. LoveKraft has several decades of experience in musicianship and playing in front of large crowds, all the band members have been in many original and cover band projects over the years and have played all over the country and internationally.

The band has had a great success in 2006 performing at the top clubs in San Francisco to sold out shows at places like; Slims, Great American Music Hall, Red Devil Lounge with support to national acts like Stoke 9, The Young Dubliners, and an upcoming show with the Goo Goo Dolls.

LoveKraft's Demo CD has been given numerous awards and has received a great response from all. The band looks forward to the rest of 2006 and beyond to continue to grow, produce songs, and perform live. The band has an amazing line-up with the recent addition of Dante Roberson one of the worlds top session drummers. All proven players that want nothing more then to play music and rock.
